Formative Assignment 2

Module Name	
Course Name	
Assignment Title	Build Website using HTML, CSS, JavaScript & jQuery

Learner Name	

Learner declaration
I certify that the work submitted for this assignment is my own and research sources are fully acknowledged.   Student signature: Date:

Purpose of this assignment

To demonstrate your capabilities in the following areas:

- Develop a website using HTML, CSS, JavaScript & jQuery based on the wireframes, information architecture & storyboard designed
- Execute the test cases and validate the website meets the design requirements.

Submission Format

The submission is in the form of an individual written report with examples and illustrations. This should be written in a concise, formal academic style using single spacing and font size 12.You are required to make use of headings, paragraphs, and subsections as appropriate, and all work must be supported with research and referenced using the Harvard referencing system. Please also provide a bibliography using the Harvard referencing system.

Submission file

Submission File Name format: Cohort Code _Full Name_Assignment Number

Scenario

You work as a Junior Web Developer at an independent web-developing company, WebSpace, that helps big and small organisations build their brand through innovative, clean, and easy to use websites with enhanced accessibility features.

WebSpace specialises in developing custom-built websites to suit the unique needs and preferences of a business. They build engaging websites, factoring in the type of business and the industry of operation, demographics, the available budget, maintenance cost, and the short- and long-term objectives and goals of the client.

Your team's main duty is to design and create websites.

The team is responsible for the look of the website, the technical aspects such as performance, capacity, traffic, integrating graphics, and audio and video, in order to create content, server and client-side scripting and being able to work with operating systems, database and application servers.

WebSpace, has been commissioned by DoBu Martial Arts to develop a new website that will promote the company and support some of its business operations.

DoBu Martial Arts is a martial arts gym. The gym offers classes in a number of different martial arts, as well as fitness training and self-defence courses. The gym has a large, matted martial arts area, a fully-equipped gym, a sauna, a steam room and changing and shower facilities.

The owner of DoBu Martial Arts, and your line manager, have provided you with some additional information to help you design and create the website. This information should be used alongside any additional research you carry out.

Prices and membership options	
Basic (1 martial art – 2 sessions per week) – monthly fee	£25.00
Intermediate (1 martial art – 3 sessions per week) – monthly fee	£35.00
